Professional Summary

Computer Science undergraduate with strong foundations in Java, Spring Boot, backend development, and scalable web application development. Experienced in developing full-stack applications using Java, React.js, REST APIs, SQL, and cloud and deployment technologies. Skilled in DSA, OOP, DBMS, Operating Systems, and software engineering principles.

Education

Vignan's Foundation for Science, Technology and Research

Jul 2023 – May 2027

Bachelor of Technology in Computer Science Engineering

CGPA: 7.67/10

Technical Skills

Languages	Java, JavaScript, SQL
Java Technologies	Core Java, Spring Boot, JDBC, Collections Framework, OOP, Exception Handling
Frontend	React.js, HTML5, CSS3, Bootstrap
Backend	Spring Boot, Node.js, Express.js, REST APIs
Databases	MySQL, PostgreSQL, MongoDB, SQL Server
DevOps & Cloud	Linux, Docker, Nginx, PM2, AWS, Git, GitHub Actions
CS Fundamentals	DSA, DBMS, Operating Systems, Computer Networks, SDLC

Experience

Backend Application Deployment & Maintenance — CSE Department

Jan 2026 – Present

- Deployed and maintained scalable backend applications on Linux production servers.
- Configured Nginx reverse proxy, PM2 process management, and secure backend deployment workflows.
- Worked on REST APIs, authentication systems, and database integration practices.
- Developing a startup website using modern technologies.

Projects

Mahotsav Event Registration & Management System

Java, Spring Boot, React.js, MySQL

- Developed a real-time event registration and management platform with admin dashboard, payment tracking, live analytics, and WebSocket-based chat functionality.
- Built scalable REST APIs and backend workflows using Spring Boot and MySQL.

Attendance App

Native Java, PostgreSQL

- Developed an attendance management application for the CSE Department enabling students to monitor attendance percentage, analytics, and graphical reports. Implemented features for class counselors to track student attendance status, including safe, warning, and below-75% categories.
- Implemented JWT authentication, RESTful APIs, and relational database integration using PostgreSQL.

Certifications & Achievements

Certifications

- MERN Stack Development — Apna College
- Data Structures & Algorithms — Smart Interviews
- SQL Certification — HackerRank
- Java (Basic) — HackerRank

Achievements

- First Prize — Stack-Hack Hackathon (2025)
- Second Prize — Project Expo (2025)
- Second Prize — Amaravati Quantum Valley Hackathon (2025)
- Finalist — Bytexl-Haxelerate Hackathon
- Participant — Smart India Hackathon
